

1.1.4.1.3 Identify reconnection exhausts in the solar wind

- Identify reconnection exhausts in the solar wind. How large are the reconnection rates and energy dissipation in current sheets?

Required observations:

- *Action for Jonathan Eastwood (Tim): determine ideal conditions for observing reconnection exhausts in the solar wind*

Duration:

- A few hours.

Other constraints:

Comments:

Not easy to observe with a 4 sec resolution.
